To Whom It May Concern

Late in 2009, Prendos NZ Ltd., began working with Riverview School in overseeing a programme of repair for the significant damage done by leaking buildings. This is a multi-million dollar project affecting all but one building in the school (roll 355 students). Their role in overseeing this programme is likely to continue through to sometime in 2012.

It is my pleasure to comment on their work for the Ministry of Education as carried out here at Riverview School. The key people involved are Mr Sean Marshall and Mr Daryl Frost and, in recent weeks, Mr Robert Medemblik. These men have been thoroughly professional in all their dealings with the school, very accommodating of our input and needs, and are pleasant and approachable in their relationship with us.

Over this period of time I have worked with them through the process of approving repair plans, selection of tenders, and overseeing the work as it is being done. The company holds regular (fortnightly) site meetings which I attend, and all matters pertaining to the running of the school (programmes, moving of classes, children's safety, noise levels, timelines, etc.) are all included in the agenda, and any decisions are acted upon promptly.

I am very happy with the service provided by Prendos. I am glad that they will continue to oversee this very significant property project over the next year or two, and would be pleased if they were appointed by the Ministry of Education for any further work at my school.

Yours sincerely

Ken McLeay M.Ed.Admin.(Hons), M.A., B.Ed., Dip.Tchg.
